

Product Name	Spec No	Brief Description	End Use			
			Feedstuffs	General Ind	Horticulture	Agricultural
75 micron Calcium Carbonate	MSS/5	Filler grade. 85% minimum passing 75 micron sieve.	✓			
150 micron Calcium Carbonate	MSS/6	Animal Feed grade limestone. Top size 2mm, Approx. 45% passing 75 micron sieve.	✓			
130 micron Calcium Carbonate	MSS/8	Air-classified free flowing grey/of-white calcium carbonate powder, gritty to touch and free of any lumps. Top size 300 micron.	✓			
180 micron Calcium Carbonate	MSS/11	Grey / off white calcium carbonate powder, gritty to touch and free of any lumps. 15-45% less than 75 microns.	✓			
0.5-4mm Grit	MSS/15	Grey limestone grit particles. 10% max passing 0.5mm.	✓			
Cascal T80 (Dusting Powder)	MSS/2	Milled product. Free flowing grey/of-white calcium carbonate powder, free of any lumps. Top size 150 micron.		✓		
0.5-4mm Dolomite Grit	MSS/9	Dolomitic Limestone. Dark brown/ grey grit particles consisting of a mixture of different size of grit free from dust. 10% max less than 500 microns.		✓		
4-10mm Dolomite Grit	MSS/14	Dark brown/ grey grit particles consisting of a mixture of different size of grit free from dust. 10% max less than 4mm.		✓		
Cascal T50	MSS1	Air-classified, free flowing grey/of-white calcium carbonate powder, free of any lumps and smooth to touch. Top size 80 micron.		✓		
Cascal 75/25	MSS/3	Free flowing fine grey/of-white calcium carbonate powder, free of any lumps. 85% minimum passing 75 micron sieve.		✓		
Mastic Asphalt Filler	MSS/10	Grey / off white calcium carbonate powder, gritty to touch and free of any lumps. 45-55% less than 75 microns.		✓		
Graded Sand	MSS/12	Brown / yellow sand consisting of a mixture of particles from 1.1mm to dust. 38% max less than 500 microns.		✓		
0-0.5 mm Sand	MSS/13	Brown / yellow sand consisting of a mixture of particles from 0.5mm to dust. 0-5% less than 40 microns.		✓		
Cascal SW100	MSS/16	Free flowing, high brightness, white filler. 50% passing 20 microns.		✓		
Cascal T65	MSS/17	Super fine grey/ off white calcium carbonate powder, smooth to touch and free of any lumps. Mean size > 10 microns.		✓		
Cascal RM110	MSS/7	Dolomitic Limestone. 9-11% Magnesium content.			✓	
Agrical	MSS/4	Cubicle dressing limestone product. 80% minimum passing 75 micron sieve.				✓
